

CAPENSIS

FIJNBOSCH CHARDONNAY

2022

REACHING NEARLY 600 METERS ELEVATION,
FIJNBOSCH VINEYARD IS HOME TO THE HIGHEST PLANTED VINES
IN THE STELLENBOSCH REGION OF SOUTH AFRICA.

THE CAPENSIS FIJNBOSCH CHARDONNAY seeks to showcase the pinnacle of purity from a singular site within the Stellenbosch District, and is only produced by our winemaker, Graham Weerts, during exceptional vintages. While our flagship wine, Capensis Western Cape Chardonnay, is sourced from specific vineyard sites across the Western Cape, fruit for this wine is sourced exclusively from our estate Fijnbosch vineyard. Planted at nearly 600 meters, these vineyards is home to some of the highest planted vines in the Stellenbosch District.

Special consideration is exercised in the selection of each vine that becomes a part of this blend to ensure depth, finesse, and quality of the highest level is apparent in the glass. Our Fijnbosch Chardonnay 2022, made from different parcels and pickings from our Fijnbosch vineyards exudes the hallmark tangerine citrus notes that have become synonymous with this property. Aromas of gunflint and a tinge of fresh vanilla pod greet the nose while a rich umami quality creates a savory layer that enhances the fruit-forward profile on the palate. There is an impressive balance between intensity and elegance that highlights the wine's cohesive character and supports its generous texture. The finish is long and satisfying, leaving a lasting impression of refinement.

Due to its limited nature, only 125 cases of this wine were produced in 2022
